

My 9-11-01 experience chapter two: Dated 090121

As you may know from my previous communications I was on the fifth plane on 9-11 that never got off the ground from Dulles Airport on a United Airlines Boeing 767 from IAD to Denver as I was headed to Fort Huachuca In AZ. Becuase their was a problem with the rudder. The technicians made several trips up to the cockpit and went back in forth.

In May of 2009 at a S-2000 Car Club meet friends of mind told me that I was on the fifth airplane that never got off of the ground. As a friend of hers was a flight attendant on that flight that when the FBI went over the passenger manifest confirmed that there were hi-jackers on my plane.

Tonight at the American Legion Post 10 in Manassas VA I bumped into a friend of my mine and a friend of hers that both have Top Secret/ SCI clearances (including the Life Style clearance interview)

The friend of my fiend is married to the retired Sheriff of Alexandria VA where Moussaoui was jailed and he was the only person that Moussaoui would talk too. He confirmed that he was on the fifth plane that never got of of the ground.
